

PAN CLEANER

CleanCap

The CleanCap is the ideal machine for the cleaning of bread and roll pans after depanning.

Crumbs and other loose debris – like seeds – are removed by the CleanCap when a strong air stream is blown in, or on, the pan. An easily accessible driven brush (option) eliminates dirt that accumulates on the top side of pans.

CLEANCAP PAN CLEANER APPLICATIONS:

- Bread Pans
- Roll Pans
- Baking Sheets

STANDARD FEATURES:

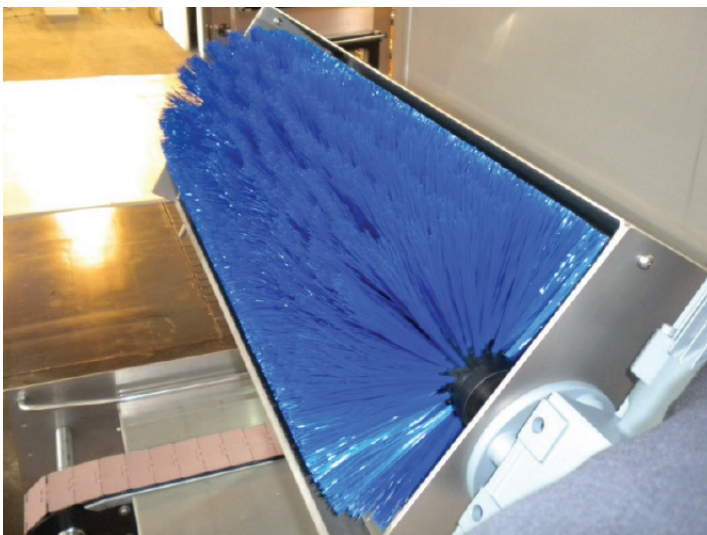

- Heavy-duty stainless steel frame
- Special air knife construction
- Easily accessible driven brush (Option)
