

PRODUCT COOLER

CapMatic

Continuous linear product cooler with Capway® endless conveyor belt.

The product is conveyed up on the inside of the cooler and, at the top, crosses over to the outside to go down again. This means infeed and discharge are at the same level. The system is equipped with a single, frequency-controlled drive motor to obtain a variable cool time. Each tier is driven by an endless CapTrack drive system.

CAPMATIC PRODUCT COOLER APPLICATIONS:

- Bread
- Rolls
- Pizzas
- Baguettes
- Viennoiseries
- Pastries
- Pies

STANDARD FEATURES:

- First in/First out
